

# San Francisco's Affordable Housing Shortage

**Percent of All Homes Affordable for 80% AMI Family in San Francisco, 2015**

- Insufficient data
- 8.32% or less
- 8.33% - 24.21%
- 24.33% - 46.01%
- 46.01% - 69.03%
- 69.04% or more

In most of San Francisco, indicated by the lightest green areas of the map, only 8.32 percent or less of homes in 2015 were likely to be affordable for a 4-person family earning \$81,500, or 80 percent of the Area Median Income (AMI).
